PROFILE

Ambitious Software Engineering student with hands-on experience in Java, Spring Boot, React.js, MySQL, Firebase, and Android application development. Working as a freelancer since January 2025, successfully delivering multiple client projects ranging from portfolio websites to full-scale system management systems. Successfully completed an internship at the Sri Lanka Air Force, gaining practical experience in real-world system environments. Strong in problem-solving, teamwork, and Agile development methodologies, with a passion for building scalable and innovative software solutions.

WORK EXPERIENCE

Srilanka Airforce

2025 - 2026

Software Engineering Internship

- Designed responsive and user-friendly UI/UX prototypes using Figma, ensuring consistency with the system's design standards.
- Developed dynamic frontend components for the Education Management System using React.js, integrating with backend APIs for real-time data.
- Built and optimized the mobile application using Flutter, enabling seamless access for teachers, students, and administrators across platforms.

Freelancing Software Engineer

2022 - PRESENT

- Developed and deployed custom web and system solutions.

PROJECT EXPERIENCE

POS and Inventory Management System

Java, Spring boot, React, MySQL, Xampp Server

- A Java and React based web application for tracking sales and managing inventory, featuring barcode scanning and real-time updates with MySQL.

Hotel Website

React.js, Tailwind CSS, JavaScript, Visual Studio Code

- A responsive hotel website built with React.js, displaying room details, hotel info, and customer inquiry forms.

Tour Renting Website

Java, Spring boot, React.js, Bootstrap, MySQL, Xampp Server

- A booking platform using Java, Spring Boot, and React.js, with MySQL for managing reservations.

Apelskole - School Community Website

React.js, Tailwind CSS, .Net Core, Postgray SQL

- A public website showcasing school events and notices, enabling donations, and increasing visibility and community engagement.

EDUTrack-Pro : School Management System

React.js, Tailwind CSS, .Net Core, Postgray SQL

- A system for managing student records, attendance, exams, staff, and fees, helping schools handle academic and administrative tasks.
